

DRAGONS BREATH

AC power for remote applications

230Vac off grid power system:

- Ideal for locations that do not have mains power available
- No moving parts
- Warranty 5 years
- Ideal for: Lighting – Computers – Chargers – Electronics – Power Sockets
- Applications: Remote buildings – Small temporary buildings – Offices and accommodation
- c/w RCD (30mA / 16A) + two 10A and two 16A circuit breakers (16A controlled by AC input)

Self contained 230Vac 50hz power solution combines MPPT solar panel charge controller, with inverter/charger and AC circuit distribution in one unit.

Medium size unit available in 24v storage deep cycle P.b batteries

- Continuous power @ 25deg c 1600Va/1300w (Continuous power @ 40deg c 1200w)
- Efficiency 24v @ 94%
- Operating temperature range @ -20 deg c + 50 deg c
- Protection degree @ IP21
- Heavy duty deep cycle battery @ 800-900 cycles @ 50% DOD
- kit contains: 6 full size solar panels + fixing kit + fuse system + isolator switch + 6kw battery store + 1600VA 24v inv/charg 100/50 + battery monitor
